Clay Tablet Connector for Adobe Experience Manager

Version 2.3.9

Release Notes

June 4, 2015

Overview

Welcome to the Clay Tablet Connector for Adobe Experience Manager ("Connector"). The Connector enables you to automate sending and retrieving content from your Adobe Experience Manager CMS, which dramatically reduces the effort required to create, maintain, and publish Web content in multiple languages

How to Contact Clay Tablet Support

Email @: support@clay-tablet.com

Telephone: +1-416-363-0888 option "3"

System Requirements

The Clay Tablet Connector for Adobe Experience Manager ("AEM") must be installed on the AEM Author server. The Clay Tablet Connector for AEM supports AEM versions 5.6.1 and higher.

The Clay Tablet Connector for AEM has no additional hardware or software requirements beyond those of AEM. For detailed requirements, refer to the appropriate version of the *Adobe Experience Manager Technical Requirements*.

Issue Fixed in This Release

Issue ID	Description
AEM-397	A performance improvement was implemented. Previously, when the Connector used the Mongo database as the backend instead of CRX, Clay Tablet services sent a lot of traffic to the database, which slowed AEM's performance.
